## Access to Microsoft Co-Pilot AI

Penn Highlands students have access to Co-Pilot AI which offers the upgraded tier of ChatGPT. Co-Pilot allows you to access the sources it uses for responses so you can evaluate them for trustworthiness. You can also ask Co-Pilot to create images if you login to Co-Pilot using your PHCC credentials.

You can access Co-Pilot at this link. You'll see an option to login on in the upper right.
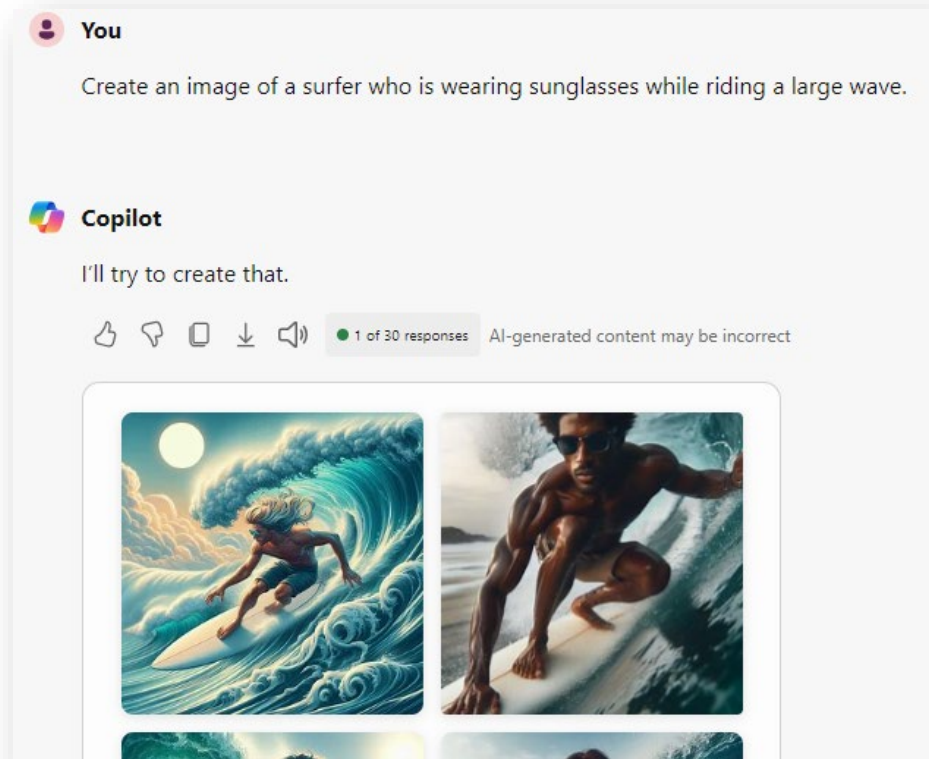

Login Link - https://www.bing.com/chat

When you click login choose the "Work or School Account" option and login with your PHCC username and password.

After logging in you can begin searching with the best version of Co-Pilot. Without logging in you cannot create images with Co-Pilot. Remember to be a specific as possible with your questions and requests in order to get the best result.

If you have questions about using AI tools, contact me, Alex Kirby PHCC Librarian, at akirby@pennhighlands.edu, call me at 814-262-6484, or visit me at my office in the Library. If you want to visit me in the Library, please let me know when you're coming so I can be sure to be there.
